

# Jael Bezares

SELF-TAUGHT PROGRAMMER

## PERFIL

Passionate about programming and technology from the outset, my focus lies in web development, data analysis, and, in the near future, data science. With experience in Python, PHP, JavaScript, HTML, CSS, and currently learning React, I enjoy crafting innovative and dynamic solutions. I'm driven by the constant challenge and the opportunity for growth in this field.

## TRAINING

My programming experience is based on a self-taught approach, where I've dedicated time and effort to learning independently. This self-directed learning has allowed me to build a strong understanding of Python, PHP, JavaScript, HTML, CSS, and data analysis, as well as practical skills in problem-solving and project development. My self-taught approach demonstrates my ability to tackle new challenges and my commitment to continuous learning in the field of programming.
